Zexa Ultra Combi Clean 5L

Zexa Ultra Combi Clean is a highly active, low foaming detergent for cleaning combination ovens in commercial and industrial kitchens. This is a sophisticated, high-quality formula.

Description:

Zexa Ultra Combi Clean is highly active and low foaming detergent. It has been specifically formulated for cleaning combination ovens in commercial and industrial kitchens.

This product works to remove heavy build ups of fats, oils and baked on grease without destroying the main surface structure. It is dispensed through the cleaning system of combination ovens, for automatic dosage by the oven's cleaning programme.

Note: Please refer to manufacturer's recommendations for use.

Applications:

- Combination ovens in commercial and industrial kitchens

Sizes & Part Code:

- 5L Containers – DZUCC-5
