Zexa Ultra Rinse Aid Fast Dry - Dishwashers

Rinse aid allows for faster drying of cups, plates and cutlery. This means it reduces the need for manual drying. Highly concentrated for low dosing into machines.

Description:

Rinse Aid Fast Dry allows for faster drying of cups, plates and cutlery, reducing the need for manual drying. Highly concentrated for low dosing into machines.

Zexa Ultra Rinse Aid Fast Dry is designed for maximum performance in today's busy commercial kitchen!

By breaking the surface tension in the water, Rinse Aid Fast Dry sheets away excess water from glasses and flatware.

Together with the heat generated by the washing process, this product reduces drying time. Also reduces water marking on all wares. Can also be used with Ultra Glasswash Liquid.

This product will not build up like normal rinse aid.

Applications:

- The perfect partner to Ultra Machine Wash
- Use in hard water areas to reduce watermarks
- Reduce scale build up in dishwashing machines

Sizes:

- 5lt Containers
- 15lt Containers
