Zexa Ultra for Child Care Dishwashers

Ultra-Child Care has been formulated specially to meet the exacting requirements demanded in the child and health care industries. It contains **no harsh caustics** or chlorine. This minimises potential damage to wash items – and reduces significant health risks posed by incorrect use.

Description:

Zexa Ultra for Child Care detergent is non dangerous and non-hazardous.

Ultra-Child Care has been formulated specially to meet the exacting requirements demanded in the childcare and health care industries. It delivers effective cleaning and sanitation plus a safe and reliable product (both to the end user and the environment).

Ultra for Child Care contains **no harsh caustics** or chlorine. This minimises potential damage to crockery and utensils and reduces significant health risks posed by incorrect use.

Delivers the safety requirements of the Quality Area 2 under the National Quality Standard.

This provides peace of mind to Child Care providers. Minimising harm and the possibility of an emergency in relation to dangerous goods on site is a key focus of Q2.

Better for the environment – and your operating costs. Double win!
